**Enhancing the knowledge
and skills of environmental
health and food safety
professionals in Arizona**

Arizona Environmental Health Association

Enhancing the knowledge and skills of environmental health and food safety professionals

AZEHA is YOUR professional HOME

Environmental Health (EH) challenges and solutions are, as you know, not happening just in your county... or even just in your state. They are happening across the nation....and you can access the insights coming out of the rest of the country through AZEHA and NEHA, our parent organization.

Obtain the knowledge and continuing education you need. Get relevant, up to date information offered in NEHA's Annual educational conferences via CD-ROM library available for FREE to AZEHA members.

AZEHA is your professional home where the state's EH professionals work together – for impact, unification and common vision. This is your state association.

AZEHA is ENVIRONMENTAL HEALTH.....

.....all of Environmental Health

.....and only Environmental Health

Many other fine associations serve portion of environmental health. If you are a specialist in one or two areas, you still want to keep up with your whole field of practice. AZEHA covers it all.

Our purpose is to advance the environmental health professional as well as the field of environmental health. AZEHA provides leadership, articles, AEC sessions, books and more on **all of EH, and only EH including:**

- | | | |
|--|---|---|
| Ambient Air Quality | Children's Environmental Health | Indoor Air Quality |
| Drinking Water Quality | Emergency Response | Injury Prevention/ Occupational Health |
| Emerging Pathogens | Environmental Health Leadership Development | Institutions and Schools Environmental Health |
| Environmental Health Research | Environmental Public Health Tracking | Land Use Planning |
| Environmental Public Health | Epidemiology | Onsite Wastewater systems |
| Food Safety and Protection | General Environmental Health | Pandemic Flu |
| Geographic Informations | General Environmental Health | Solid Waste |
| Hazardous Materials and Toxic Substances | General Environmental Health | Swimming Pools/ Recreational Waters |
| | | Terrorism and All-Hazards Preparedness |
| | | Vector Control and Zoonotic Diseases |
| | | Water Pollution |
| | | Workforce Development |

AZEHA is YOUR association

Webster's defines an association as "An organization of persons having a common interest." that is what AZEHA is. You know you will fit in here. We're *your* association. We care about you and we care about environmental health. After all, you're at the center of our mission. As an affiliate of NEHA, we do many things. There are those you know about, such as putting on the AEC & Exhibition and administering credentials via NEHA, and some you may be unaware of such as:

- Representing EH on committees with multiple organizations such as the National Coalition for Food Safe Schools, and the National Cooperative partners for Indoor Air Quality.
- Applying for grants from CDC, EPA, and others to further important EH causes such as training teams in epidemiology and helping to promote uniform installation standards for onsite wastewater systems through **the development of an installer credential.**
- Coordinating the Jobcenter at **AZEHA.org** to assist both professionals and employers.
